Improving technical skills, exploring software scalability, and contributing to innovative development projects.

EXPERIENCE

Frontend Developer – Food App | Sep 2023 – Dec 2023

Designed and developed a mobile app prototype to manage food categories and user preferences.

Built with React Native, implementing clean UI/UX design to improve navigation.

Full Stack Developer – Instagram Prototype (Personal Project) | Dec 2023 – Jan 2025

Recreated core Instagram features: feed, likes, comments, and authentication.

Implemented React (frontend), Node.js (backend), and MongoDB for data storage.

Frontend Developer – Website Update | May 2025 – Aug 2025

Redesigned interface layouts to achieve improved robustness, agility, and intuitiveness.

Applied UI/UX best practices, leading to more intuitive navigation.

EDUCATION

UTZMG   -Bachelor's Degree in Software Development Management Engineering (2021 – 2025)
